Skills

Expertise : HTML5 ,CSS3 ,React js,Bootstrap ,Tailwind css.
Comfortable : Javascript ,ES6,Express js ,MongoDB ,Mongoose,Firebase Jwt ,React Query.
Familiar : Node js,Redux. Typescript, Next js,MySql.
Tools : Npm ,Vs Code,Chrome Dev Tools, Vercel ,Netlify, Imgbb.

Projects

Sportifycamp | **Live Link** | **Client Side Code** | **Server Side Code**

Sportify is a web application designed to provide a platform for sports enthusiasts to connect, explore various sports classes, and make online payments. It offers features such as JWT authorization, role-based routing,

- Sportifycamp uses JSON Web Tokens (JWT) for secure user authorization.
- Different user roles (admin, instructor, regular users) have different access levels.
- Stripe integration enables secure online payments for class registrations.

Technologies: React js | Firebase | Express js | MongoDB | Tailwind css | DaisyUi | Jwt | Stripe

Toy Castle | **Live Link** | **Client Side Code** | **Server Side Code**

Toy Castle is a MERN full-stack web app with Firebase authentication. Users can register to access all features, including adding toys, updating/deleting their toys, and searching toys by name on the All Toys page.

- This website is a single page, created using MERN(React js,MongoDb,Express, & Node js) ,it has dynamic routing.
- Firebase authentication integration ensures secure access to the website and explore all its features.
- Enhanced user experience with interactive features like toy management, protected pages, search feature and crud operation.

Technologies: React js | Firebase | Express js | Tailwind css | DaisyUi | MongoDB

Sapori Italiani | **Live Link** | **Client Side Code** | **Server Side Code**

This is a single-page application with dynamic routing, firebase authentication, and backend built with Express.js, using dummy JSON data. It utilizes "react-lazy-load" for optimized image performance.

- The website is designed as a single page application.
- Private route for the protected Chef Details page, ensuring secure access to sensitive information.
- Integration of Firebase authentication to provide personalized and secure access to authenticated users.

Technologies: React js | Firebase | Express js | Tailwind css | DaisyUi | React-Lazy-Loading

Education

Bachelor of Business Administration.   **2021-Present**
Brahmanbaria Govt Collage.
